save time

save money

piece of cake

the difference is in the data

iW
LMS

iW
LMS

Finally, a **software solution** that transforms what-if into what a difference

What if you could...

Identify hidden costs and missing hours
that are eating away at your company's bottom line.

See at a glance whether you're operating
on budget. Or not.

Tell which employees are operating at
peak efficiency. And which aren't.

Make business decisions based on data, instead of
seat-of-the-pants perceptions.

And what if there was...

iWAREHOUSE®
Labor Management System

A Labor Management System that enabled you to
do all that at a fraction of the cost of most software
packages. And could be up and running in a
matter of days...not months.

There is.

The iWAREHOUSE® LMS **difference**

Affordable

iW LMS costs far less than typical software solutions. Non-customized upgrades and updates are included in the standard product.

Cloud-based

Because iW LMS can be implemented with as little as 5-10 hours of IT support, there is minimal burden on your IT staff.

Integratable

iW LMS can be integrated with the iWAREHOUSE fleet and warehouse optimization system to capture additional data activity, including Travel Distance, Travel Time, Equipment Type and Job Codes.

Informative

Generates labor and vehicle management reports, as well as financials that provide in-depth information to supervisors, managers, and directors.

Data gathering

Captures data from multiple sources, including CSV files, warehouse management systems (WMS), time clock and iWAREHOUSE.

Practical

iW LMS is operationally focused. Detailed reporting includes cost to serve, individual employee data, activity-based costing, automated incentives and volume-adjusted budget information.

Flexible

Because iW LMS is cloud-based, it will keep pace as technologies change and the Internet of Things (IoT) becomes a reality in your organization.
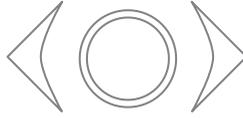

The difference is **clearly visible**

The iW LMS provides everyone on your management team with unprecedented visibility — and insight — into the costs and practices that make the difference between business as usual and business as it should be. More efficient. And more profitable.

FEATURES	iW LMS	COMPETITION
Cloud-based	included	
IT Integration time	5-10 hours	3-4 months
Version updates	included	$$$
Hardware investment	none	$$$
Time management	included	
Resource management	included	
Budget integration	included	
Payback	< 1 year	?
Reports	included	
Cost	$	$$$$

Take the first step toward
efficiency & profitability

The iW LMS solution not only provides visibility to standard productivity and utilization metrics, but to operational metrics as well. The system gathers and organizes data from common sources such as CSV files. And allows you to generate reports that you can use as a basis for better business decision-making.

And because it is cloud-based, getting the system up and running is quick and easy. Implementation requires no costly hardware, and minimal IT time (typically 5-10 hours). Non-customized upgrades and updates are part of the standard product. And it can be integrated with the iWAREHOUSE fleet and warehouse optimization system for additional equipment-based metrics.

Put it all together and you have a powerful, cost-effective solution that delivers unprecedented visibility and sheds light on smarter ways to achieve greater operational efficiencies.

your data

+ iWAREHOUSE
+ WMS
+ Time Clock
+ ERP
+ Budget

vehicle data

positive outcomes

+ Operational Accounting
+ Visibility into operational costs
+ Drive labor equipment costs
+ Employee engagement
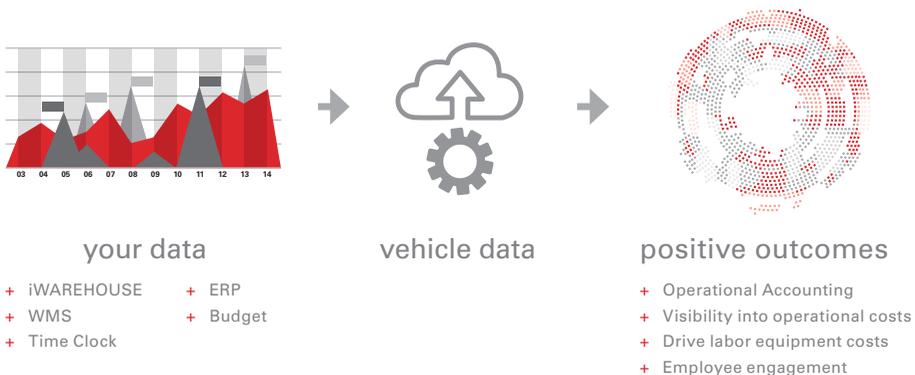

Reports provide **insight**

The iW LMS provides a clear, complete picture of operational costs that allows you to see at a glance whether your facility is operating within budget parameters. It gives you timely and valuable information that can help you decrease costs while increasing the productivity and efficiency of your workforce. What's more, armed with solid data, you'll be better able to implement best practices and expand them within your facility, or across multiple facilities.

Supervisor Reports

+ Dashboard
+ Missing Hours
+ Supervisor Grading
+ Engineered Labor Standards Comparison
+ Employee Scorecard
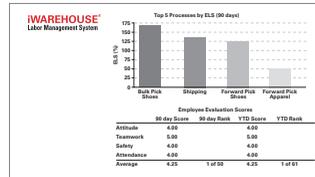

Manager Reports

+ Cost Breakdown
+ Cost Comparison
+ Cost Detail
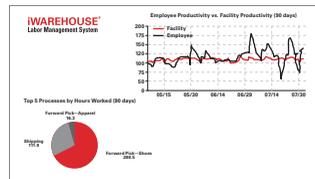

VP/Director Reports

+ Budget Results
+ Budget Dashboard
+ Client Labor Cost Savings

Let's **make it happen**

The iWAREHOUSE LMS is a real difference maker for your business with real benefits:

+ No high upfront costs, low cost of ownership

+ Cloud-based system

+ Go-live in as little as four weeks

40%
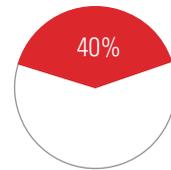

Productivity
increased

An investment your
business can count on

+ Customers report impressive results: productivity increased up to 40% and labor costs decreased up to 20%

+ Actionable data to drive business decisions and deliver greater value to customers

+ Ability to compare facilities to implement best practices and improvements

+ Increase productivity based on visibility into performance

20%
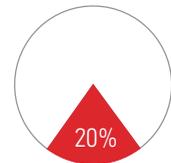

Labor Costs
decreased
